

Academic Nephrologist with Expertise in Glomerulonephritis

The Division of Nephrology within the Department of Medicine at Queen's University invites applications for the position of an Academic Nephrologist with expertise in Glomerulonephritis, Vasculitis, Obstetrical Nephrology, and other specialized kidney diseases.

The incumbent will assist the Division in fulfilling its Clinical and Academic mission within the Department of Medicine. In addition to a clinical and research focus on the diagnosis and management of Glomerulonephritis, Vasculitis, Obstetrical Nephrology, and other specialized kidney diseases, the successful applicant would be expected to teach at both the undergraduate and postgraduate levels, engage in collaborative research, and contribute to the administrative functions of the University and Hospitals. This includes providing administrative support to the Specialized Kidney Disease program, which is a Regional Centre of Practice. The incumbent will participate in the Divisional group practice plan consistent with their personal role description, including periodic coverage of the in-patient ward and consultation service, out-patient clinics (including general nephrology consultations, multidisciplinary chronic kidney disease clinics, and transplantation), and dialysis (in-centre hemodialysis, peritoneal dialysis, home hemodialysis, and satellites units). Candidates may also be required to provide occasional in-patient coverage of the General Internal Medicine clinical teaching units. Protected time for research is possible for candidates that have a demonstrated program of basic or clinical research.

It is expected candidates will exhibit a history of providing exemplary clinical service, a strong potential for innovative and scholarly research, as well as provide evidence of a strong academic portfolio with demonstrable teaching experience. Preference will be given to candidates who have an active research program and a successful track record of research publication. Candidates must also demonstrate strong leadership skills, excellent communication skills and the ability to work in a collaborative environment.

Candidates must be eligible for licensure in Nephrology with the College of Physicians and Surgeons of Ontario. Preference will be given to those who either hold or are eligible for certification by the Royal College of Physicians and Surgeons of Canada in Nephrology, as well as formal training and experience in Glomerulonephritis, Vasculitis, Obstetrical Nephrology, and other specialized kidney diseases.

Members of the Department of Medicine enjoy a competitive compensation package, including a generous benefit plan. Academic rank will be commensurate with experience.

One of Canada's leading universities, Queen's has a reputation for academic excellence, research, and a diverse and vibrant learning environment. Kingston is situated in the heart of historic Southeastern Ontario on the shores of beautiful Lake Ontario, a midpoint between Montreal and Toronto.

The University invites applications from all qualified individuals. Queen's is strongly committed to employment equity, diversity, and inclusion in the workplace and encourages applications from Black, racialized/visible minority and Indigenous/Aboriginal people, women, persons with disabilities, and 2SLGBTQ+ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority.

To comply with federal laws, the University is obliged to gather statistical information as to how many applicants for each job vacancy are Canadian citizens/permanent residents of Canada. Applicants need not identify their country of origin or citizenship; however, all applications must include one of the following statements: "I am a Canadian citizen/permanent resident of Canada"; OR, "I am not a Canadian citizen/permanent resident of Canada". Applications that do not include this information will be deemed incomplete.

Applications are to include a letter summarizing expertise, qualifications, and accomplishments relevant to the position together with a curriculum vitae, a brief biography and the names and full contact information of three referees. Complete applications are to be directed to:

Dr. S.L. Archer, Professor and Head
Department of Medicine, Queen's University
c/o Joel Gillis, Etherington Hall, 94 Stuart Street
Kingston, Ontario K7L 3N6
Email: medicine@queensu.ca

Review of applications will commence immediately and will continue until the position is filled.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during the interview process, please contact Mr. Joel Gillis above.
