

Locum Opportunity in Saskatoon, Saskatchewan

Nephrologist

Position Profile: Join the Saskatoon Nephrology Group for a locum of at least 6 months to provide adult nephrology services at the three Saskatoon hospitals, including satellite hemodialysis units outside of Saskatoon. The successful candidate will participate in: in hospital care and consultations; incenter/community/satellite hemodialysis care; home-based therapies (peritoneal dialysis and home hemodialysis) care as well as nephrology outpatient and chronic kidney disease clinics. Clinical teaching of medical students, residents and Nephrology trainees will be expected. Candidates must hold certification with the Royal College of Physicians and Surgeons of Canada as well as subspecialty certification in Nephrology and be eligible for licensure with the College of Physicians and Surgeons of Saskatchewan. Start date of the locum is March 15, 2022. Following this locum, there may be additional opportunities.
