

## Build your career...at the hospital that's built for the future

Humber River Hospital (HRH) is one of Canada's largest acute care hospitals, fully digital, and serving a diverse catchment area of more than 850,000 people in the northwest Greater Toronto Area. HRH operates 722 acute inpatient beds with 3,400 staff, approximately 700 physicians, and over 1,000 volunteers. HRH currently includes the Wilson site, a 656-bed full service acute care facility that opened in 2015, and the Finch and Church sites, known as the "Reactivation Centres" (RCC). A 356-bed long-term care facility "Humber Meadows" is currently under construction at the Finch Avenue site.

Our vision of Exceptional Care, Healthier Community and our focus on equity and inclusivity is something we share with our partners at the North Western Toronto Ontario Health Team. As Canada's first digital hospital and home of the first Patient Care Digital Command Centre, a commitment to innovation, research, and academic excellence remains at the core of our organization. We look forward to further development of these core elements through our recent membership in the Toronto Academic Health Sciences Network (TAHSN).

As an associate member of TAHSN, HRH provides many academic opportunities to all professions. We are committed to establishing a Family Practice Teaching Unit in partnership with the University of Toronto within the year, further strengthening our commitment to academia. The Hospital has formal affiliations with medical schools at University of Toronto and Queen's University.

HRH has a strong emphasis on quality, safety, and the patient and family experience. In 2018, HRH received Exemplary Standing from Accreditation Canada. HRH also recently received the Studer Group Award for Excellence in Canadian Patient Care and the Canadian Council of Health Service Executives Patient Safety Award.

The Hospital has developed short and long-term objectives outlined in the 2021-23 Strategic Plan with a core direction of advancing HRH as a community academic hospital. Examples include:

- Growing targeted specialty programs that are responsive to the needs of our community
- Establishing an HRH Digital Healthcare Research Institute
- Continuing to shepherd the development of a long-term care facility
- Establishing a comprehensive Medical Education Program

## Build your career...at the hospital that's built for the future

Humber River Hospital is committed to revolutionizing patient care for our large, diverse community. Having recently moved into our new, state of the art, lean, green, digital hospital, the future is very exciting for our people and programs. Humber River is affiliated with the University of Toronto and Queen's University.

### EXCELLENT CAREER OPPORTUNITY

Right now we are looking for a

### NEPHROLOGIST

With our strong commitment to growth, innovation, and care quality, we have an exceptional opportunity for a Nephrologist with strong clinical, interpersonal, and leadership skills. The successful candidate will join a collegial department of eight physicians and a talented management team in our continual pursuit of clinical excellence in our state-of-the-art facility.

In addition to providing outstanding clinical care, you will be expected to provide leadership and content expertise in at least one clinical area within nephrology. You will be expected to bring a unique, value added subspecialty skill set to our team of physicians. In particular, we are seeking advanced training and/or expertise in home hemodialysis. We are seeking the right person who will fit into our culture and who will bring passion, positive energy, and determination to help our Department evolve into a renowned centre for excellence in nephrology.

Our affiliations with the University of Toronto and Queen's University provide teaching (primarily nephrology fellows) and research opportunities for anyone wishing to further develop these areas. Applicants must be a Fellow of the Royal College of Physicians & Surgeons of Canada in Internal Medicine and Nephrology, and be a member of, or eligible for membership with the College of Physicians & Surgeons of Ontario.

*If you are interested in this exceptional opportunity, we ask that you forward a detailed letter of interest along with your curriculum vitae in confidence **by Friday, March 31, 2023** to:*

**Dr. David Mendelssohn**
