

Nephrology Position Thunder Bay

Do All That You Were Trained to Do!

Nephrologist looking to bring in a second nephrologist to join a solo practise with the aim of taking over the entire practise. The practise includes inpatients (MRP and Consults), Hemodialysis, Peritoneal Dialysis, Home Hemodialysis and PreDialysis / Transplant/ GN Clinic. We direct immunosuppressive therapy for our GN patients.

TBRHSC is a 375-bed acute-care hospital and is the regional referral centre for Northwestern Ontario.

Proficiency in placement of temporary Hemodialysis Catheters is an absolute requirement. Proficiency in renal biopsy, tunnelled HD catheter and PD catheter insertion and removal and Therapeutic Plasma Exchange are assets, but willingness to learn these skills is sufficient.

Applicants must be certified in Nephrology with the Royal College of Physicians and Surgeons of Canada and must hold or be eligible for licensure with the College of Physicians and Surgeons of Ontario (CPSO). I am happy to discuss the opportunity with current Nephrology Fellows who will be eligible for RCPSC certification.

The successful applicant will be expected to apply for a teaching position with the Northern Ontario School of Medicine.

Please send expressions of interest to Dr. A. Boake at: cboake@superior-nephrology.net, fax: (807) 345-5888 or tel: (807) 345-7879.
