2022 AGM

MAY 12-14
VIRTUAL EVENT

CONFLICTS OF INTEREST

A conflict of interest may be considered to exist if a speaker in an annual meeting program is affiliated with or has a financial interest in, commercial organizations that may have a direct or indirect interest in the subject matter of his/her presentation.

A “financial interest” may include, but is not limited to, being a direct shareholder in the organization; being on retainer with the organization; or having research or honoraria paid by the organization. An “affiliation” may be holding a position on an advisory committee or some other role of benefit to a sponsoring organization.

The intent of this disclosure requirement is not to prevent a speaker with a conflict of interest from making a presentation but to make known the relationship, in advance, to the audience. It is intended that any conflict be openly identified so that with full disclosure of the facts, attendees may form their own judgments about the presentation.

Last Name	First Name	Declaration
